pp 171-175
The Law of Registration

Factors for the arising of the Registration (TadÈrammaïa)
- Sense-sphere Javana (out of SS 54, out of 29 SSJ)
- Sense-sphere Being (out of 11 SSP)
- Sense-sphere Object (out of 6 SSO)

- In a thought process of a person whose rebirth consciousness is
  accompanied with joy, somannassa (somanassa-paÍisandhi-puggala),
- if the javana is accompanied with dosa (domanassa-javana),
- if there is no chance for the arising of tadÈrammaïa and no
  chance for the arising of bhavaËga, [. . .J (dosa), Reg, B . . .]
- upekkhÈ-santÍraïa arises,
- functioning as Ègantuka-bhavaËga (Adventitious/Guest),
- taking a habitual object of sense-sphere.

- 19 Cittas have 3 functions namely "paÍisandhi, bhavaËga and cuti."
  In one's life, consciousness of rebirth, life-continuum and death
  must be same. (p 125)

- No TadÈrammaï, unless there are the 3 factors. (p 175)

- When there is no TadÈrammaïa, there must be bhavaËga following
  the javana accompanied with dosa (Domanassa-javana)

- The bhavaËga should be somanassa because paÍisandhi-citta is
  somanassa. But somanassa-bhavaËga is opposite to the javana
  accompanied with dosa. (domanassa-javana and somanassa-
  bhavaËga)

- If the bhavaËga is accompanied with upekkha, it is not suitable with somanassa-paÍisandhi-citta. (Somanassan-paÍisandhi and Upekkha-bhavaËga)

Following the domanassa-javana of a person whose rebirth consciousness is accompanied with joy,
- Citta: UpekkhÈsahagatasantÍraÏa-citta,
- Name: Ògantuka-bhavaËga,
- Occasion: When neither tadÈrammaÏa nor bhavaËga can follow the domanassa-javana,
- Object: Habitual object,
- Function: BhavaËga, Ògantuka-bhavaËga

Ògantuka-bhavaËga-vithi (Thought process with guest bhavaËga)
